

## IJCAET & ISAMPE 2017 Poster Presentation Guideline

Poster session represents an effective and valuable means for authors to present their papers. All poster presenters will be offered the possibility of an interactive presentation where videos, small prototypes, leaflets and any other kind of multimedia material could be shown. Poster stands and poster boards will be provided for your posters.

### Preparing your Poster Presentation

The poster should cover the key points of author work, aiming at:

- A brief overview of your work
- Attracting the audience
- Promoting discussion for future research
- Prospecting for future works and collaboration

The author(s) name(s) and affiliation(s) are inserted under the title. Posters must be **A1 size** and **landscape**. Size: 23.39 inches (59.4 cm) high x 33.11 inches (84.1 cm) wide.

Author for poster presentation should use the IJCAET and ISAMPE 2017 conference poster template.

Provide the poster with color to highlight and make the poster more attractive with tables, figures, cartoons, diagram etc. wherever possible. The smallest text on the poster must be at least 10 mm high. The important point of poster presentation should be in larger font. Make the poster presentation as self-explanatory as possible.

Posters should be put up on the day where the specific poster session is scheduled between 08:00–09:00 am to enable the conference participants to view the posters at any time within the display day. The general display time is from 09:00 am–5:00 pm on the day your poster is assigned. The Authors in Attendance Time (the time when the respective author(s) of a poster session must be present at their display for presentation) will be announced few days before the display day.

We look forward to seeing you in Bali.
